Part 1

This is merely an intro, outlining the story plot. The camvator sort of runs out of gas, parking the player against the cathedral's front wall.

Part 2

Objectives:

- Find out what happened to Nikole.
- Kill no one.

Grab the High Priest's Chamber Key from the kitchen. Once you collect 100 in valuables, a new, completed objective will show up:

- Ah, now there's a true Thief, 100 in gold.

Once you enter the High Priest's chamber, look up and frob the unlit torch.

Part 3

Objectives:

- Find Nikole before Father Hirvakia does!
- Escape with Nikole.

When you come upon Nikole, she's fighting with an ape. Another ape will shoot a poison dart at her. Pick her up to complete the first objective.

You're supposed to take her to the portal and escape. However, the script is broken and the portal will not activate. Some have succeeded; most have not.

Part 4

Objectives:

- Continue 'til you reach the conclusion...

Head upstairs and go back downstairs after reading the scroll.
