

### Newdark Bugs + other fixes

These 4 small missions were released separately due to a contest restriction, however when playing these missions via Newdark there are a number of game stopping bugs that you will encounter, including not being able to mantle up to the portal in part 2, and the portal in part 3 does not work at all. Thankfully Unna Oertdottir has produced a fixed version of all 4 missions in one zip, which is available for download [here](#).

## Part 2
